

TORQUE TESTING RIG FOR OVERLOAD CLUTCHES

WALTERSCHEID AUSTRALIA

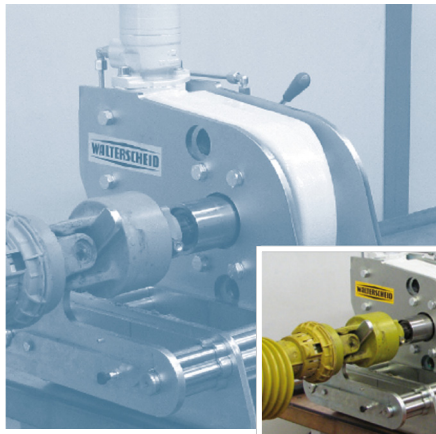

Offering Innovative Solutions to Old Problems.

Our newly developed torque test rig is a solution to measuring torque values, prior to leaving the factory or after servicing.

Benefits:

- ◇ Eliminates any uncertainty regarding torque setting
- ◇ The ability to re-set accurately after overhaul
- ◇ Quick turnaround (Less down time)
- ◇ Low cost

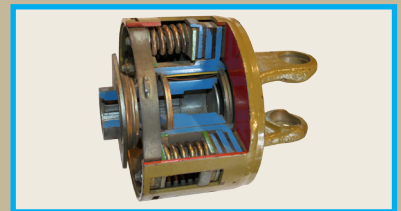

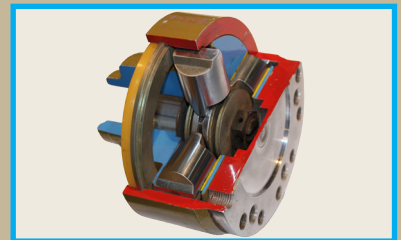

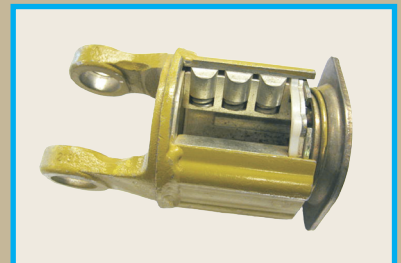

SW42

Applications:

- ◇ Round Balers
- ◇ Rotary Hoes
- ◇ Power Harrows
