

HVST

Hydraulically Adjustable Lateral Stabilizer

WALTERSCHEID

203060 - Hydraulic Side Shift Cylinder

The **Walterscheid HVST** hydraulically adjustable stabilizer, allows the lateral adjustment of 3-Point linkage including the attached implement while in motion.

Depending on your 3-Point geometry, it is possible to shift the implement +/- 250mm.

Ideal for mowers:

- Adjustment at barriers.
- Optimizing during curves.
- Optimizing overlapping in hillside locations (anti-drift)
