Front Linkage & Front PTO

Robust Design

Sophisticated Technology

Best Quality

1300 WALTER

McCORMICK

C 70 – 105 max

CX 70 L – 85 L

CX 90 – 110

MC 105 – 130

Completely integrated system

Lower links fold inward diagonally

Absolute ground clearance!

Front linkage:

- Robust and sophisticated design conceived for the heaviest of accessory equipment and long operating hours
- Optimally adapted and designed to integrate with your McCORMICK – tractor
- Highly stable due to frame up to clutch housing
- Steering angle and ground clearance completely maintained
- Lower links standardly equipped with Walterscheid link hooks
- Stable and warp resistant lifting frame – lower links are serially foldable up (without tools) and removable
- Enhanced float adapter for the best ground adjustment of your front equipment – can be locked without tools
- All bearings and pivots can be greased
- Cylinders with hardened and hard-chrome plated piston rods
- Standard shunt coupling and spindle top link
- Simple, quick assembly!

*Stable frame up to clutch housing –
Uninhibited front axle oscillation*

Front PTO:

- Completely in your tractor integrated unit
- Designed for the heaviest of long-term loads – transfer of full motor power is easily possible!
- Hydraulic front PTO clutch for a smooth and gentle start-up of your front-end implements
- Switch –on and –off by a push-button
- PTO shaft can be manually turned for easy coupling
- Simple, quick assembly – front PTO can also be retrofitted without any problems

Front linkage and PTO are a compact unit

Accessories:

- Quick coupling triangle cat. 2 with upper role
- front linkage remote control (only with electr. control unit)
- Hydraulic accumulator
- Multivalve: double acting – single acting – locked (transport protection)
- Brackets for mower relief springs
- Additional hydraulic connections in front
- Ballastweights and supporting frames for basic weight of the tractor
- further option range for municipal use

Switch – on by a push-button

Holder for top link - standard for all types

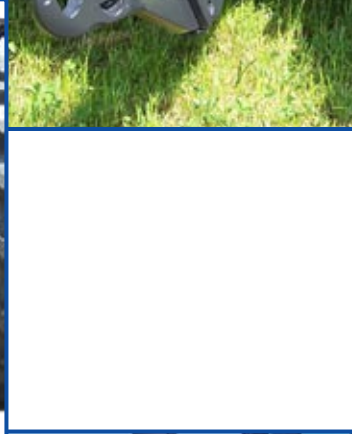

Brackets for mower relief springs

MC 120 – 135 P6

XTX 145 – 165 / TTX 190 – 230

Available for all series –
also for tractors of the F-series!

Optimally co-ordinated also for the
combination Front linkage + Front loader!

All information and illustrations herein are approximate and not binding. Subject to modifications!
